

Exposé: Next Heroes

Communication-Kit for eCall

The idea is a simulator for eCall. It comes with your smartphone. It informs you about eCall and demonstrates the rescue chain easily and understandably.

The target audience is the average person: Students, mechanics, fremen and salesmen.

About us: We are 40 teenagers from 13 to 19 years of age. We are from 15 countries. Our school is the Neue Schule Wolfsburg in Germany. Christian Werner is our teacher. We exhibited this idea at the Ideenepo in Hannover 2017. We won several competitions „Jugend forscht“ (2016, 2018 and 2019), IdeenExpo (2015 and 2017) and „Ideen machen Schule (2014).

Thank you for your support! Without many sponsors and supporters we would never be able to reach our results. We took part of the mini maker fair in the phaeno a technical museum in Wolfsburgin 2017.

Our next goals: We want to take part in the competition „Jugend forscht“ in 2019.
